

# Glen Echo Park's Magic Staircase Treasure Hunt Game

Can you  
find these?

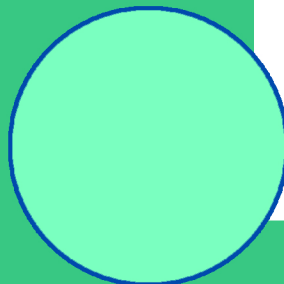

How many  
do you see?

It's the last  
letter in the  
name of  
what building?

Find these  
on a building  
named for  
something  
good to eat!

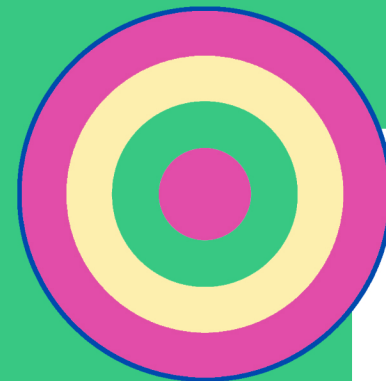

## In the Park

How many  
of these?

Where is  
their color  
the same?

Can you take  
lessons here?

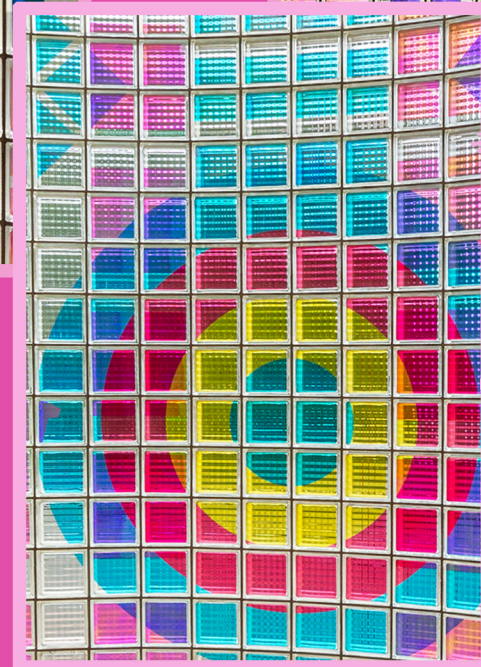

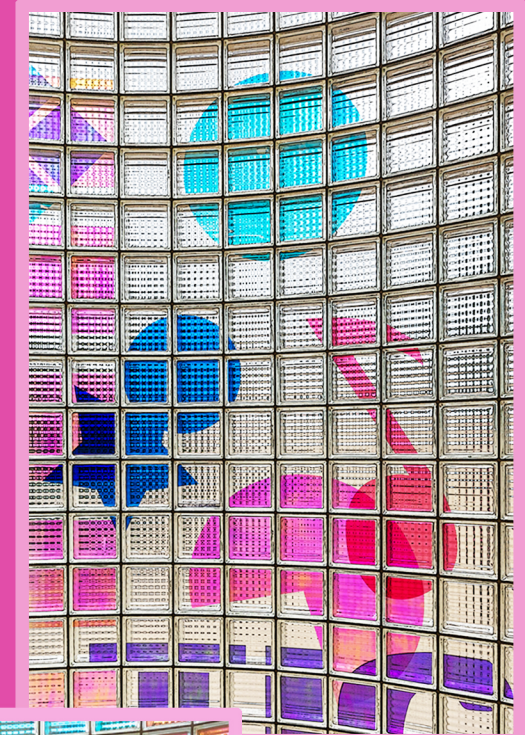

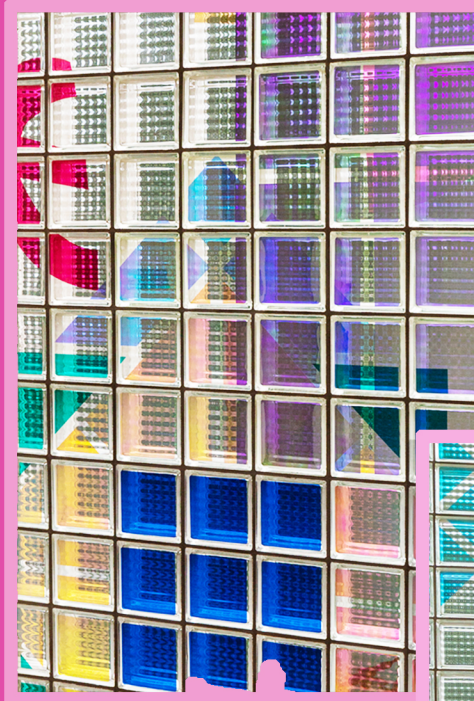

## About Magic Staircase

The window designs in the stairwell of the Arcade Building at Glen Echo Park were made by artist Lauri Hafvenstein. As you walk up the stairs, notice how the colors change. This is because some of the shapes are made with a special type of material that shows different colors depending upon the light and where you are standing. All of the shapes in the window are based on things you can see in the Park.

## In the Window

Magic Staircase was created by Lauri Hafvenstein ([www.lightandcolor.art](http://www.lightandcolor.art))

The Magic Staircase project is possible with support from:

The Corcoran Women's Committee  
Art Patron Geoffrey Fallon  
DC Commission on the Arts & Humanities
